PROSPECTS

- 06 **Insights**
- 14 **Fintech in Islamic Finance: The Journey Begins**
Fintech (financial technology) developments in the Islamic finance space are still very nascent, but key Islamic finance markets like Malaysia, UAE and Bahrain are seeking to support and grow Shariah-compliant fintech.
- 20 **Catching the Fintech Wave**
- 24 **Banking 2017: Tough Road Ahead**
- 28 **Are Banking Jobs at Risk?**
Tumultuous change is reshaping the landscape of banking jobs.

GOVERNANCE

- 34 **Determining Your Ethical Stance**
- 38 **Banking on Confidence**
- 42 **Optimising the Three Lines of Defence**
The Three Lines of Defence model is still valid today, but banking organisations must pay attention to implementing a robust Risk Culture – which is founded on ethics and integrity - to ensure the effectiveness of the three-legged model.

THOUGHT LEADERSHIP

- 50 **Lifting All Boats**
With increasing competition among International Financial Institutions (IFIs), is there a place for the World Bank?
- 56 **Making Wise Decisions**

TECHNICAL

- 64 **Avoiding a Bumpy Ride Along the Road to Data-Driven Decision-Making**
Organisations that want to become truly data-driven must be open to different answers derived from the generation, collection and analysis of data. It's all about the data.
